auchrannie resort

Sustainability and Green Tourism

We are passionate about the environment and sustainability, and are aware of the importance of this to our guests. We have been affiliated with the Green Tourism Business Scheme since 2007 and have implemented many environmentally friendly initiatives including:

- installation of two biomass woodchip boilers
- increased recycling of glass, paper products & ink cartridges
- low energy lighting + power and water saving initiatives
- local buying, use of fair-trade products and sustainable food products
- support for the Arran Trust and work with RSPB
- paperless billing
- installation of an electric vehicle charging point

Auchrannie's Green Policy Statement

- Auchrannie is committed to reducing the impact of our business on the environment and we will comply with environmental legislation as a minimum level of performance
- We will reduce energy consumption in all areas of the business wherever possible, without adversely affecting service to the guest or the working environment
- We will continue to investigate energy reduction in the future and we are willing to invest in improving energy efficiency

Responsible Visitor Charter

At Auchrannie we are doing what we can to make the island more eco-friendly to help preserve and enhance the beautiful natural environment. Please help us:

- Conserve energy – switch off lights and electrical appliances when they are not needed and close windows when the heating is on
- Give the car a rest – take a walk, hire a bike, use the bus
- Shop local – Arran has many fantastic local products
- Reduce, reuse, recycle – please leave any paper, plastic, glass products, etc beside the bin and our housekeeping staff will ensure these are recycled
- Be water wise – don't leave taps running and re-use towels where possible
- Respect nature – look after the island and its wildlife by not littering and follow the Countryside code
