electric charging

EV charging at Auchrannie

Our six EV charging points are located in our main car park, between the two hotels. These consist of 2 x dual 40kw rapid charging tethered units using Combined Charging System (CCS) as well as 1 x dual Type 2 7kw fast charging unit which has 2 x type 2 connectors for users to connect their own cable.

Guests are restricted to 2 hours maximum charging at a time for the 40kw units and 4 hours maximum for the 7kw units between the hours of 9am and 9pm. If one car is connected to a dual 40kw unit, it will receive 40kw of power in one hour. If 2 cars are connected to the same unit, they will receive 20kw each.

To operate the units, scan the QR code on the unit with your smartphone which will take you to the Project EV Pro website or open the Project EV Pro app if you have this installed and follow the on screen instructions.

Please contact Project EV Pro with any billing queries.

EV charging nearby

There are a few other locations on Arran where you can get a quick charge on the go. There are two other charge points within 1 mile of the resort

Travel better to protect our local community

As an employee owned and operated business, we are passionate about our environmental commitment and our social responsibilities to the wider community. We are also aware how much this means to many of our guests who continue to return to Auchrannie & Arran year after year.

We actively encourage our guests to leave the car at home and travel as foot passengers

Auchrannie has been affiliated with Green Tourism since 2007 and currently hold their Silver award.
